Overview

To support one million homes and businesses cut carbon from their energy and transport use by 2025.

Powering a cleaner, greener, world. We make it simple to generate, share, store, use and travel by clean power.

Transformational asset transaction

Strategic disposal of 47.5MW generation portfolio for up to £21.2m.

Using the capital from our past to invest in our future.

Energy services: where we will play

Renewable supply

Fair priced, transparent, 100% renewable electricity

Decentralised energy

Services to generate, store, consume and share your own power

Mobility

Make it easier to own, drive, fuel and pay for an electric vehicle (EV)

Energy supply market context

Rising prices

Rising prices throughout 2021

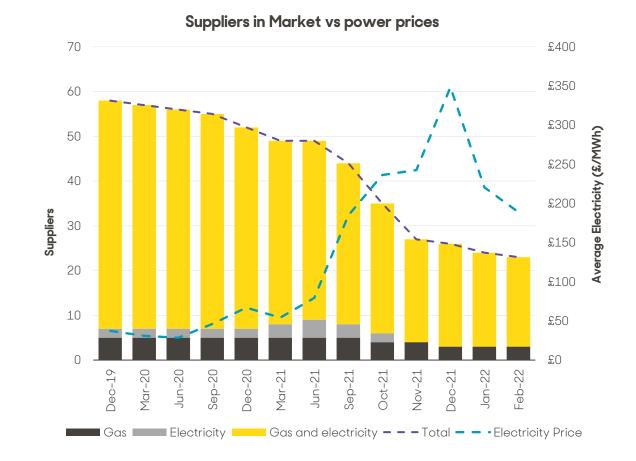

Price cap increasing 54% in April 2022

Supplier exits

28 suppliers exited the market in 2021

Balance sheet strength

Good cash balance provides buffer against short term volatility. Well placed to manage risks
