

Power Purchase Agreement

Making your power pay more

good
energy

Good Energy has power purchase agreements with over 1,700 independent renewable generators. For over 20 years, we've worked hard to provide generators with a top quality service that helps them get paid a fair rate for their electricity.

Market leading rates

With our own trading desk, we offer accurate prices based on real market conditions. We also pay top rates for your REGOs.

Expert, friendly service

We understand what it takes to sell renewable electricity. From support with new connections and claiming for embedded benefits to advising you of regulatory changes that could impact payments, we help you make the most of your power.

Easy account management

As well as a dedicated account manager to answer queries, you'll have an online account where you can easily access your Self Billed Invoices, see your balance and update your details.

Our Power Purchase Agreements

Classic PPA

Fixed price certainty for up to 3 years.

SmartGen

A simple contract for smaller generators of up to 250kW.

Bespoke PPA

Fully flexible contracts with direct access to energy markets, for complete pricing control.
