1. **Subscription:** The maintenance of your equipment is provided to you on a subscription basis. The Maintenance Contract will be applicable and in force from the date you enter this agreement. Each year you will receive the Subscription Services relevant to your chosen service package (providing you have paid the relevant price).
2. **Renewal:** Unless you cancel in accordance with the terms and conditions below, your Maintenance Contract will automatically renew for a further 12-month period on each anniversary of the date that you originally entered into it (or, if you enter into the Maintenance Contract at the same time as we agree to carry out your installation, your installation commissioning date). If you pay by Direct Debit, payment for the next Subscription Period will be collected automatically.
3. **Cancellation:** You may cancel the Maintenance Contract and prevent auto-renewal for the following Subscription Period at any time prior to the start of the next Subscription Period written/email notice to the contact details at the top of this page.

You will continue to receive any Subscription Services you are entitled or due to receive up until the end of that year. If you choose the monthly payment option, you are committing to the full annual fee and required to complete your 12 monthly instalments.

You also have a legal right to cancel within 14 days of entering into the Maintenance Contract (your cooling-off period). If you ask us to commence the Services during this period, we will require your express consent to do so.

4. Refunds: You will not receive a refund for any unused part of a Subscription Period or any payment made upon entering into the Maintenance Contract unless you cancel the contract within 14 days of entering into it (your cooling-off period), including where you are entitled to a price reduction under the Consumer Rights Act 2015.
5. Price and payment: The first subscription price set out in your contract will apply from the contract start/ installation commissioning date for the first full year of the Subscription Services. We may adjust the Subscription price for any subsequent period, provided we have given you no less than 30 days prior written/email notice before your renewal date.

If you do not agree to a revised price, you may cancel your Maintenance Contract before the new price takes effect without penalty.

The price includes VAT. Payment must be made in accordance with our invoice or by setting up a direct debit instruction.

6. Additional costs: If additional access measures to the roof are required for panel cleaning, the sales team will include additional access costs in your contract. If applicable, these costs will be invoiced separately following completion of the service.

8. Labour costs: Customers on the Ultimate Care service benefit from free labour for fault-related callouts. For customers on all other services labour is chargeable. We will always confirm and agree any additional labour costs with you in advance.

The services provided under this contract are in addition to, and do not affect, any rights you may have under any workmanship warranty, which covers the correction of installation-related faults within the applicable warranty period, regardless of the maintenance service selected.

The Services and any applicable limitations are described in the Maintenance Service Guide, <https://www.goodenergy.co.uk/solar-care-maintenance-service-guide>, which forms part of the Subscription and may be updated from time to time.
